Professional Summary

Innovative Flutter and Android Developer with extensive experience building high-performance, real-time mobile applications. Expert in architecting robust systems for Live Auctions, Logistics Tracking, and HR Management. Proven track record of implementing complex features such as Face Recognition, Socket.io for live bidding, and REST API integrations. Recognized as a "Best Performer" for delivering user-centric UI/UX and scalable mobile solutions.

Technical Skills (Frameworks & Tools)

- **Cross-Platform:** Flutter
- **Native Development:** Android SDK, Android Jetpack Library
- **State Management:** GetX, BLOC, Provider
- **Real-time & APIs:** REST API Integration, Pusher, Socket.io, WebSockets
- **Backend & Databases:** Firebase, Supabase

Professional Experience

UpscaleBD | Flutter Developer | Jan 2025 – Present

- **DigiGO:** Engineered a cross-platform HR management app utilizing GetX for efficient data fetching of employee performance metrics.
- **Ticketing:** Developed a real-time ticket management app with Pusher for instant updates and an intuitive interface.
- **AttendX:** Built an attendance system featuring face recognition and Supabase for secure, real-time data synchronization.

Ignition IT Solution | Flutter Developer (Part-time) | May 2025 – Nov 2025

- **Kurd Auction:** Developed a robust live auction system using Pusher to facilitate real-time bidding and vehicle listings.
- **Rawa Shipping:** Built a logistics application for efficient updates on vehicle purchase status and container shipping.

Market Access Analytics and Consulting | Junior Android Developer | Jan 2024 – Dec 2024

- **FieldX Sales Automation:** Enhanced productivity through real-time tracking and task management using the Bloc package.

- **EDOTCO:** Integrated real-time task notifications to optimize generator allocation and operational efficiency.
- **AGI:** Contributed to a CRM platform focused on process optimization and sales growth.

SpaGreen Creative | Android Developer | Feb 2024 – May 2024

- **OXXO:** Developed a high-performance Live TV application for Android using Java.
- **LMS Learning App:** Built an online education platform with course progress tracking and engagement tools.
- **Delix Courier Service:** Developed a parcel management app featuring real-time tracking and delivery logistics.

Genuine Technology & Research Ltd | Android Developer | Oct 2023 – Jan 2024

- **Atrai:** Streamlined financial processes using Flutter-based solutions and GetX.
- **Easy HR:** Implemented features to simplify and automate HR management tasks.

Education
Pabna Polytechnic Institute | Diploma in Computer Engineering | 2018 – 2023

Awards & Languages
- **Awards:** Best Performer Award (2022) – European IT Solution.
- **Languages:** Bangla (Native), English (Beginner).
